

A Summary of Suggestions for Preventing and Treating COVID-19, plus Related Commentary

I'm **not** a medical professional, but rather a physicist who has extensive scientific training (e.g. in being skeptical). Additionally I've always had an interest in health issues. It's imperative that you should discuss any medical actions you are considering, with a competent physician. That said, just as physicists don't know everything about physics, medical practitioners don't know everything about human health. You are the final decision maker.

Here are a collection of studies, reports and articles on the COVID-19 matter. If you find any that are better, please email me.

[Note 1: for material since the 3-18-20 *Newsletter** & 3-23-20 *Newsletter***.]

[Note 2: my four documents are preceded by a red arrow: " ->".]
